

Biosmart

HVO ready power & heating

New gensets and heating systems ready for the transition away from fossil fuels

We have been working hard behind the scenes to develop new ways to save harmful emissions and get ready for the future.

We need to provide piece-of-mind to our customers who are moving towards new alternative fuels. Our Biosmart products are designed to run both HVO and regular diesel whilst maintaining a manufacturers warranty. The perfect solution whilst in the transition away from fossil fuels.

HVO (Hydrogenated Vegetable Oil) is becoming more popular and accessible to off-road machinery users.

It offers an easy way to cut emissions and fossil fuel use, whilst running traditional generators.

Available as an upgrade on ALL new generator powered EasyCabins. Also on all our hybrid power generators, Solar Pod, Charge Pod etc.

New 'Air' diesel heating systems are also available in the Biosmart specification.

Biosmart HVO fits neatly into our product line offering real flexibility with fuel availability. Biosmart working in combination with our solar hybrid systems, will lower emissions even further!

Available on NEW models with diesel gensets

Higher power HVO gensets available

HVO

Every drop powers lower harmful emissions

Due to changes in tax relief on red diesel coming into force in 2022, the drive towards green fuel alternatives is getting stronger. There are many established UK wide suppliers and prices are falling.

HVO is virtually the same as mineral diesel, but with added green benefits.

All Biosmart generators & heaters have a warranty for fuels that are EN 15940:2016 rated. This will include a wide range of HVO brands available from many suppliers.

Fuel Benefits (*varies depending on fuel brand/supplier)

- Up to 30% lower NOx*
- Up to 85% less particulates*
- Up to 90% less CO2*
- Meets EN 15940:2016
- Enhanced cold weather storage & performance, compared to mineral diesel
- Non toxic biodegradable
- Low sulphur, FAME and fossil content*

Award winning welfare  Designed & built in the UK
