

Storage Trailers

AJC EasyCabin

Secure mobile tool storage trailers, with hydraulic axles.

Storage Trailer Range

ToolStore & **SolarStore**

The EasyCabin Storage Trailer range offers secure, mobile storage solutions designed to perform on demanding sites, available in 12ft, 16ft and 20ft sizes to suit projects of any scale. The ToolStore provides robust,

all-steel mobile storage with hydraulic axles for fast, effortless setup, ideal for safely housing tools, equipment close to where they're needed. The Solar Store builds on this proven platform by integrating roof-mounted solar panels and an onboard battery system, supplying power for hydraulic operation and internal LED

lighting while reducing the need for plug-in charging. Both models share the same heavy-duty construction, smooth towing characteristics and rapid deployment, giving customers a choice between a traditional storage solution or a smarter, self-charging alternative, without compromising on strength, security or usability.

Built for a tough life

High strength, steel exterior. Ply interior.

Secure

High strength doors & locks

45^s

setup

From tow to parked. Ready to use in 45 secs.

LED

Powered by battery & solar.

Solar Power

For LED lighting & axles
