

Cold weather storage

A GUIDE TO LOOKING AFTER YOUR CABIN WHILST NOT IN USE.

General

1. Empty all water containers or isolate incoming water pressure. Press all taps, shower buttons and flush toilets to drain the system, empty all waste containers.
2. Turn the drain valve to remove any water in the system.
3. Ensure the tank is empty.
4. Lubricate your door mechanisms. Use only a silicone, or P.T.F.E. based lubricant spray which will leave a long lasting and protective film on moving parts.
5. Ensure the door cylinder operates correctly and check any turns are fixed to the cylinder, tightly—tighten the thumb turn grub screw if needed.
6. Clean the cabin fully, this will preserve the quality of the product.
